PROGRAM CHANGES

1. Patton College of Education

Program Code: ME6866
Program Name: Integrative Language Arts
Department/School: Teacher Education
Contact: Matt Felton-Koestler

We are eliminating two 1-credit field courses because they will no longer be offered through ENG and because the students already have ample field hours through the college of education. Students only take one of these, so this lowers the overall credits from 46 to 45:

- ENG 5911 Field Experience in Secondary English/Language Composition
- ENG 5912 Field Experience in Secondary English/Literature

This change was made in consultation with Dr. Linda Rice, English Department Chair.

The current program requires students to choose ONE of the following options:

- ENG 5510 Teaching Literature in Secondary Schools (3 credits) AND ENG 5911 Field Experience in Secondary English/Language Composition (1 credit)
- ENG 5520 Teaching Language and Composition (3 credits) AND ENG 5912 Field Experience in Secondary English/Literature (1 credit)

We are eliminating the requirement for either ENG 5911 or 5912, thus eliminating 1 credit from the program of study.

EXPEDITED

1. College of Fine Arts

Program Code: BF5155
Program Name: Film
Department/School: School of Film
Contact: Ofer Eliaz

Add FAR 1500: Viewing the Arts as an option to the 1st Year Core requirement. This course would support the BFA curriculum well and will give the students more flexibility in building their schedules. This change will not alter the program's required credit hours, learning outcomes, or assessment plans.

Currently, the First-Year Core requires that students complete one of the following courses:

- ART 1100 – Seeing and Knowing the Visual Arts
- ART 1240 – Visual Art in Practice and Theory: Critical Perspectives
- IART 1170 – Introduction to the Arts: Arts in Contexts

This change would add the following course to the list of options from which the students can choose: FAR 1500: Viewing the Arts
