Re: ME6301 Clinical Mental Health/ Rehabilitation/ School Counseling
ME6297 Rehabilitation/ Clinical Mental Health Counseling

During Q2S, the Counselor Education program reduced the number of major codes to more accurately reflect the program offerings. In an effort to clean up unused major codes in our program, I'm writing to request that ME6301 and ME6297 be inactivated. Master's students in the Counselor Education program have the option of selecting from one of the following active codes:

ME6278 Clinical Mental Health Counseling
ME6324 Clinical Mental Health/ Clinical Rehabilitation Counseling
ME6274 School Counseling
ME6298 Clinical Mental Health/School Counseling

There are no impacts to students or faculty as these code have not been used since before 2012.
