

A Sense-of-the-Senate Resolution on Replacement Group I Hires
Finance & Facilities Committee
Faculty Senate
June 9, 2011
Second Reading & Vote

Whereas the quality, continuity, and competitive standing of Ohio University can only be maintained if the vast majority of teaching, research and service is provided by tenure track faculty; and

Whereas, the voluntary separation plans have produced opportunistic cuts to Group I faculty, yet failed to provide specifications and criteria for refilling vacated lines;

Be it resolved that the University shall give priority to the hiring of Group I faculty to replace open lines and not cover those lines with contingent faculty;

Be it further resolved that the strategic planning for the allocation of replacement hires be done in an open and transparent manner.
