

Resolution on Revising the University Naming Policy and Practices
Executive and Finance & Facilities Committees
Faculty Senate
October 10, 2016 – Second Reading & Vote

Whereas the University Policy on the Naming of University Buildings (37.010) has not been reviewed since its approval in March 2003;

Whereas a variety of naming practices, such as the naming of classrooms, laboratories, and conference rooms, are not covered under the existing version of this policy; and

Whereas the Executive Committee has been informed by the Executive Vice President & Provost that a substantial revision of the policy is currently underway;

Be it resolved that the Faculty Senate requests the Executive Vice President & Provost to strengthen the policy review process for the revision of Policy 37.010 by requiring at least one face-to-face meeting of all parties invited to comment on the revision; and

Be it further resolved that Faculty Senate be included among those groups who participate in the deliberations.
